Dear Councillor

14 May 2014

We have brought into the public domain documents from a number of bodies which number in the thousands of pages. It is clear from these documents that discussions - in depth - between The Jockey Club on the one hand, and a number of government agencies and local authorities, most notably Spelthorne Council, on the other hand, have been going on for the past two-and-a-half years.

The unchanging background to these discussions has been the removal of Green Belt status from The Jockey Club's Kempton Park estate, and the possibility of permission being given for a housing development on that protected land.

The removal of Green Belt status from the Kempton Park estate and the construction of a housing estate will, as you will be very aware, create a precedent in law which will affect the status of other open spaces and Green Belt land within Spelthorne.

In view of the above, do you think Kempton Park's Green Belt status should be protected and maintained as it currently stands, and permission not be given for development on that land? A simple Yes or No will suffice.

Yours

Alan Doyle
