Dear [REDACTED]

Thank you for your recent email.

Kempton Park are at a very early stage in considering potential long term developments at the site in Sunbury and have not made an application to Spelthorne Borough Council for the development of any new homes.

Whilst you are correct that the Council 'is looking to meet its target for affordable housing', Kempton Park does not feature as a place where we could currently discharge that responsibility, as, amongst other considerations, as you point out, Kempton Park is in the Green Belt.

Were any application to be received at some stage in the future, there would clearly be a consultation period – when a host of issues would need to be properly addressed.

Regards

Roberto
